Description

SN216 - S.M. MORTAR FIX is a superior quality tuck pointing acrylic compound designed to repair displaced mortar or cracks between brickwork, stone and concrete blocks. The product has superior adhesion and excellent resistance to extreme weather and temperature variation. The specially designed nozzle simplifies gunning and smoothing in one easy step.

Features:

- Easy application
- Tough, durable
- Long lasting
- Superior adhesion
- Paintable
- Interior/exterior
- Textured finish

Surface Preparation

Remove all loose debris, dirt and contamination from area.

Application

Pierce the seal and apply to area in a continuous bead. If required, smooth joints.
Allow 72 hours to cure. Product dries to a concrete gray.

Precautions

Do not apply if rain is expected in the next 12 hours or if temperature is below 5°C (40°F).

Cleanup

Use soap and water while compound is still fresh.

Caution

WARNING! Avoid contact with eyes and skin. In case of eye contact, flush thoroughly with water and immediately CONSULT A PHYSICIAN. If ingested, immediately CONSULT A PHYSICIAN.

KEEP FROM FREEZING.

KEEP OUT OF REACH OF CHILDREN.
