

# KOP-R-LASTIC™ THERMOPLASTIC SEALANT

### Features and Benefits:

- 15-year warranty
- Highly elastic – stays flexible without cracking
- Excellent adhesion – even on wet surfaces
- Excellent low temperature flexibility
- No primer needed
- Non-sagging
- Skins over, tack-free within 30 minutes
- Serviceable over a wide temperature range from -29°C to 71°C (-20°F to 160°F)

Kop-R-Lastic is a one-part, high-performance synthetic rubber sealant, which is quick drying and flexible. It exhibits excellent adhesion to a variety of construction materials including metal, aluminum, concrete, masonry, wood, PVC/vinyl, glass, and more.

It is used as a termination sealant in both vertical or horizontal joints – in both exposed and concealed applications. It is ideal for use in masonry joints, metal flashing, glazing, and window and door applications. Kop-R-Lastic can also be used as a termination sealant in conjunction with Henry® BlueskinVP® 100 and 160 self-adhered water resistive air barrier membranes.

**Size:** 300 ml (10.1 Fl. oz.) cartridge.

**Coverage:** 5.5m to 7.5m (15-25 feet) per cartridge.

**Limited Material Warranty:** For further warranty details, see the Technical Data Sheet or our website at [www.ca.henry.com/warranty](http://www.ca.henry.com/warranty).

Standard colours. Slight colour variation due to printing.
